DETAILED ACTION

Claims Status

1. Claims 59, 60, 65, 66, 69-74, 79, 125, 127-129, 133, 135-137 and 147-155 are pending in the instant application. Claims 59, 65, 66, 125, 133 and 137 have been amended, claims 61, 62, 67, 68, 75-78, 80-124, 126, 130-132, 134 and 138 have been canceled and claims 147-155 have been added as requested by Applicant in the Paper filed November 3, 2006.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 2. Claims 59, 60, 65, 66, 69-74, 79, 125, 127-129, 133, 135-137 remain rejected and new claims 147-155 are rejected under 35 U.S.C. 102(e) as being anticipated by Ni et al., U.S. Published Application No. 20040136951, effective priority date March 17, 1997 (60/040,846), for the reasons set forth in the last office action.

Applicants traverse the rejection for the following reasons. The Board of Patent Appeals and Interferences (the "Board") has declared an interference, No. 105,361, between U.S. Patent No. 6,872,568 (the '568 patent) and application 10/423,448, which are drawn to antibodies to DR5/Apo-2 receptor. Applicants assert that the Board determined that the '568 patent was not

Art Unit: 1646

entitled to the benefit on any of the applications to which it claimed priority for the Count in the Declaration of Interference, and therefore the Ni et al. reference is not entitle to an effective filing date prior to the filing date of the instant application for the currently pending claims, and therefore, cannot be prior art to the current application under § 102(e).

Applicants' arguments have been fully considered but are not deemed persuasive. Until the Board decides the outcome of the interference, it is not established that Ni et al. does not get priority back to the provisional application, 60/040,846. Applicants are advised that a declaration under 37 CFR 1.131 would not be sufficient to overcome the Ni et al. reference, since it is a published application claiming the same invention. Applicants could suggest an interference (see § 41.202 of the Federal Register, Vol. 69, No. 155, Thursday, August 12, 2004).

Conclusion

3. No claim is allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eileen B. O'Hara, whose telephone number is (571) 272-0878.

The examiner can normally be reached on Monday through Friday from 10:00 AM to 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Nichol can be reached at (571) 272-0835.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
